

Handi-Capacités, Sport & Work

All winners through physical and mental exercise, for socio-cultural peace.

Paris, 12-02-2024,

**To UNESCO delegations Your
Excellencies,**

Subject: Request for support for the organization of the First International Congress
on
"Handi-Capacity, Sport & Work"

Excellent,

We have taken the initiative of organizing a Congress in 2024 with the support of other entities on the theme of Disability, Sport and Work. This congress will take place on September 09 with the support of UNESCO's SHS section. (To be confirmed).

Ms TINIO Linda, from the disability section of the Social and Human Sciences sector, asks us whether other permanent delegations, apart from the Comoros delegation, will be supporting the project.

Various forms of support are available:

- Moral support (contribution to the congress book, for example, via your delegation or a disability organization in your country - ***see last country template page***)
- Material support (participation in lunchtime and evening buffets, for example, with special dishes from your country)
- Financial support for incompressible costs (venue, translation into different languages, French, English, Arabic, Spanish, Portuguese, sign language, Japanese garden space for the 2 buffets, technical costs, publishing costs for the book, publishing costs for the program, other?)

The project was born in 2022 from a meeting between two doctors, António MARCELINO LEAL, President of the SANITUS Foundation (Portugal) and Marc ROZENBLAT, President of SNMS-Santé (Syndicat National des Médecins du Sport-Santé) and General Secretary of PIDFRA (Panathlon International District France).

The specific skills (physical and mental exercise) and sporting performance of people with disabilities will enable them to integrate more fully into society and culture, in line with the values of the universal sports education model also promoted by Panathlon International & the Sanitus Foundation.

Expanding this vision of peace and social inclusion for people with disabilities requires a new paradigm, such as that of "**Handicapacités**", to be integrated into a global terminology and consciousness through a universal charter of prevention and respect for the application of the rights of people with disabilities, including autism.

We are at your disposal to answer any further questions you may have, and to listen to any suggestions you may have. Please accept, Your Excellency, the assurance of our highest consideration.

Dr. Marc RozenblatPr

Chairman, Syndicat National des Médecins du Sport-Santé Français (SNMS-Santé)

President of Panathlon International Club Reims Champagne (PICRCH) Rehabilitation and Occupational Physician (Portugal/ France)

General Secretary of the French District of Panathlon International (PIDFRA)

at President of the Groupement de Coopération Sanitaire du Réseau Prévention Main Île-de-France (GCS-RPM IdF)

Vice-President of the Latin and Mediterranean Group of Sports Medicine (GLMMS)

. António Marcelino Leal

Chairman of the SANITUS Foundation

Member of the International Chair of Bioethics

World Medical Association and HFAW-Indian Chapter

Post-Doctorate at ICBAS-University of Porto

COUNTRY PAGE TEMPLATE

Country of delegation + Flag

UNESCO Ambassador+ Photo
(optional)

Maximum characters: 2000 1-

A brief introduction

- On the current disability situation in your country (e.g. number and type of people with disabilities, costs, major problems, etc.)

2- The new concept

- Word and concept "Handi-Capacités" - the translation of this concept into the language of the country in question, what lexical field is associated with it? —————
- **LE MOT & CONCEPT (À DÉBATTRE): "HANDI-CAPACITÉ(S)"** - *Abilities physical, mental or sensory impairments needed to overcome one or more functional deficits and adapt to the social, sporting and professional world.*

3- Its implications, best practices and the future:

- What initiatives have already been put in place in the country in question, your leads and experiences, suggestions for future development to be promoted at national level, proposals for future inclusion policies at work, etc.?
